New Product

Meet the Met! A modern, weather resistant speaker with the same great sound as our Flagstone. Custom colors are available.

New color Flagstone

We now have the Flagstone (full size only) in Sandstone.

New Product

The Fairfield and North Salem feature the same drivers as our Flagstone and Mini Flagstone speakers in a classic lattice style cabinet. Custom paint colors are available. We are no longer making the Bedford.

The Piermont

A modern slatted teak PlanterSpeaker designed for the outdoors. The finely tuned enclosure and premium components give the Piermonts a rich sound usually reserved for boutique speakers.

Madison Fielding amplifier

We are now offering this Madison Fielding power amplifier with 300 w/ch, 5-way binding posts and multiple turn on options. This amp is a perfect match for our Flagstone and Piermont speakers. See the last page before the Terms and Conditions for more information.

What does it mean?

Our Flagstone, Mini Flagstone, Mini Flagstone Jr., C-Flagstone, Westport and Southampton speakers are available in more than just the standard front firing configuration.

Example 1: *You have a large patio that leads to a pool. You could place a pair of Flagstone 180's between the pool and patio. With drivers on opposite sides of the cabinet (180°) you can cover both areas from a single pair of speakers.*

Example 2: *You are trying to cover a patio that wraps around the corner of a house. A Southampton stereo 90 can send sound in both directions. Matched up with a standard pair of Southamptons you can completely fill both sides from three speakers.*

We build models that will project sound from two or even three sides, covering large or complicated areas from a single enclosure. Both mono and stereo versions are available.

**NOTE - due to cabinet and speaker limitations, not all models are available in all configurations. See each product for available options.*

The Metropolitan

THE METROPOLITAN brings the great sound of our Flagstone series of outdoor speakers to a modern, weather resistant design. With its clean lines and custom colors, the Metropolitan will blend seamlessly into most outdoor projects. Like our other PlanterSpeaker products, live plants will thrive in its deep planter space. We included a drainage tube and Smart Pots soft bags for planting inside the speaker.

The Metropolitan is built to order. Please allow two weeks for construction.

Specifications:

- Dimensions:
- Metropolitan: 17" W x 17" D x 30" H
- Drivers: 1" Audax tweeter, 4" Audax mid-range, Eminence 10" woofer
- Frequency response: 40Hz to 18kHz
- Power handling: 150 watts RMS
- Impedance: 8 ohms
- Recommended amplifier: 150-200 watts RMS (at 8 ohms)
- Sensitivity: 89 db
- Custom configurations are available.
- A pair of Metropolitans can cover an area of up to 1,000 sq. feet

The standard color is white, other colors are available. Contact us for details.

	PlanterSpeaker Model	Suggested Retail

Flagstone Series

The worlds best outdoor residential speaker. The sound is full and balanced, even at low listening levels. The lower portion holds the front firing tweeter, mid-range, crossover and down-firing woofer. The upper portion holds live or artificial plants, for which drainage is provided. All speaker components are concealed from view. The Flagstone is fully weatherized and comes with a removable Smart Pot for use with live or artificial plants. Our Flagstone enclosures are made in the US from UV rated industrial grade poly resin.

The Flagstone is also available as a planter only.

Flagstone PlanterSpeaker - specifications:

- Dimensions: 22" W x 22" D x 23-1/4" H
- Drivers: 1" Audax tweeter, 4" Audax mid-range, Eminence 10" woofer

Madison Fielding PA 600

Madison Fielding introduces a new series of power amplifiers perfectly suited to our Piermont, Fairfield and Flagstone model PlanterSpeakers - or any other application that requires a high quality two channel amplifier. Made in the USA with top grade materials and built with custom integration in mind, these amplifiers were designed for the challenges of outdoor audio. The PA series feature multiple turn on options, stereo/mono operation, volume level controls, lots of reserve power and the ability to drive long lines of speaker cable. These amps sound rich and warm at low listening levels and bold and powerful when entertaining. Madison Fielding PA series provide a solid platform to drive speakers in any installation..

PA 600 - 300 watts/channel, 2 channels @ 8 ohms - Dual high current mono block design

Features:

- o The latest B&O ICEpower full bridge amplifier modules
- o Auto turn on - Selectable audio or trigger on/off with sensitivity control and variable delay, 3-25 volt trigger or front panel
- o Gold plated brass five-way binding posts
- o Switchable stereo or mono operation
- o Buffered line out for adding additional amplifiers (2 channel models)
- o Audio input trim controls
- o 2 year warranty
