

The Terra Cotta PlanterSpeaker

Our Terra Cotta PlanterSpeakers are made of durable U/V rated polyethylene from custom molds and imported from Italy. All speaker components are concealed from view and feature a lower reflector for spacious 360 degree sound. Beautiful weather treated wrought iron stands are included. For indoor or outdoor use, our speakers are designed to hold live or artificial plants. They are available in granite or original terra cotta finish.

Terra Cotta 5.16

A 16" diameter pot and a 5.25" coaxial driver, 23" high with a 25.5" footprint. A pair of Terra Cotta 5.16's can cover an area of up to 200 square feet.

Specifications:
Frequency Response: 85Hz - 15kHz
Power handling: 40 watts RMS
Impedance: 4 ohms
Recommended amplifier: 35-60 watts RMS
Sensitivity: 87 db

Terra Cotta 6.17

A 17" diameter pot and a 6.5" coaxial driver, 26" high with a 26.5" footprint. A pair of Terra Cotta 6.17's can cover an area of up to 300 square feet.

Specifications:
Frequency Response: 75Hz - 15kHz
Power handling: 40 watts RMS
Impedance: 4 ohms
Recommended amplifier: 40-70 watts RMS
Sensitivity: 88 db

Terra Cotta 8.20

A 20" diameter pot and a 8" coaxial driver, 28" high with a 28" footprint. A pair of Terra Cotta 8.20's can cover an area of up to 400 square feet.

Specifications:
Frequency Response: 65Hz - 15kHz
Power handling: 45 watts RMS
Impedance: 8 ohms
Recommended amplifier: 45-80 watts RMS
Sensitivity: 88 db
